- Forward-mounted rail
- 10-round Magpul AICS-style detachable box magazine (5 rounds for 450 Bushmaster)
- Soft grip fore-end and pistol grip surfaces
- New Model 110 design and ergonomics

OVERVIEW:

When a rifle is meant for making fast, accurate shots from a variety of shooting positions—including off-hand—it needs to be a natural extension of the shooter's body. The Savage 110 Scout's AccuFit™ system does this, letting shooters easily customize the length-of-pull and comb height for a personalized fit, while the user-adjustable AccuTrigger™ offers a crisp, clean pull. Together with the AccuStock™, which secures the action three-dimensionally along its entire length, the 110 Scout provides the fit and function of a custom rifle—right out of the box. It's also flush with features, including a carbon steel barrel, muzzle brake and AICS-style detachable box magazine that holds 10 rounds (5 Rounds for 450 Bushmaster). Its rugged synthetic stock, forward-mounted rail and adjustable iron sights are perfectly suited to the versatile platform.
