OVERVIEW:

Not many rifles can prove themselves at the range and in the field. The 110 Ridge Warrior is adaptable enough to take on targets one day and trophies the next. The threaded heavy barrel with Cerakote creates an all-around utility rifle up for any challenge. The AccuFit system lets hunters customize length-of-pull and comb height of the Mossy Oak Overwatch synthetic stock, the official camouflage of the National Rifle Association. Plus, the user-adjustable AccuTrigger offers a crisp, clean pull critical for making precise shots at extreme distances. The rifle is built to maximize accuracy with a beavertail forend, as well as the Model 110 action secured three-dimensionally along its entire length within the AccuStock internal chassis. With all these features, accuracy is in its DNA.
